

Nabtesco's European Group Company Makes Proposals at COP28

Nabtesco Corporation (headquarters: Chiyoda-ku, Tokyo; President & CEO: Kazumasa Kimura) hereby announces that its Executive Officer Hiroshi Nerima, who assumes the concurrent position of Managing Partner at Nabtesco Technology Ventures L.P., took the stage at COP28, or the 28th Conference of the Parties to the United Nations Framework Convention on Climate Change, being held in Dubai, United Arab Emirates from November 30, 2023. He served on a panel to discuss the following topics at the Greek Pavilion, along with Konstantinos Kyriakopoulos (CEO) and Alkistis Kyriakopoulou (Chief of Staff) of Deep Sea Technologies Ltd., which is Nabtesco Technology Ventures' AI technology development subsidiary.

Date	Session Title
Dec. 4	Decarbonisation through disruption: building innovation ecosystems with startups and investors
Dec. 6	Getting Maritime Shipping to Net Zero By 2050: Can it be done?

The sessions started with the sharing of the idea that changing the current situation through startup-driven technological innovation was one of the most crucial drivers for solving global warming issues. The panelists then discussed how governments, organizations and individuals should improve ecosystems going forward in their respective capacities.

■About Nabtesco <https://www.nabtesco.com/en/>

Nabtesco was established through the integration of Teijin Seiki Co., Ltd. and NABCO Ltd. in 2003. Based on its unique motion control technology, Nabtesco manufactures components for machines to support the automation of production facilities and to provide safety, comfort and a sense of security for land, sea and air transportation. The company is proactively promoting co-creation, including fostering joint development with startups through CVC.
