# FY2024/12 Q1 Results Briefing

Nabtesco Corporation April 30, 2024

The forecast data presented herein reflects assumed results based on conditions that are subject to change.

Nabtesco Corporation does not make representations as to, or warrant, in whole or in part, the attainment or realization of any of the forecasted results presented in this document.

Numerical figures presented herein are rounded down to the nearest whole unit for monetary value and rounded off to one decimal place for percentage. Unauthorized copying and replication of this material including text and image are prohibited.

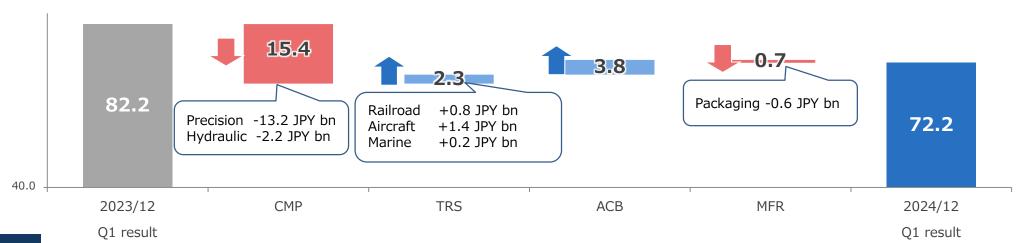

# FY2024/12 Q1 Results

# Summary for the FY2024/12 Q1 Results (YoY)

Sales

JPY billion

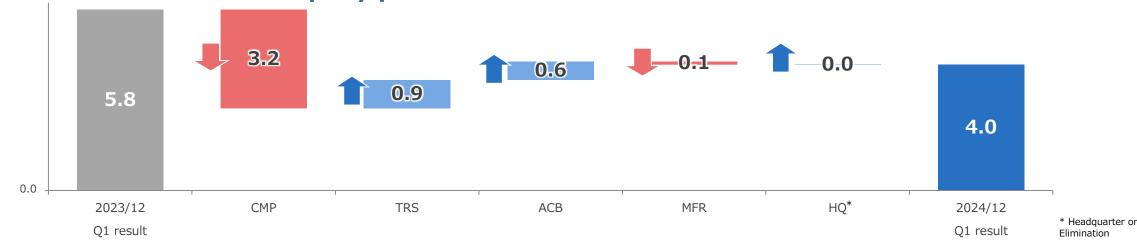

■ The entire company sales decrease due to the weak demand in precision reduction gears in CMP although FOREX impact increase the sales of ACB.

O.P.

JPY billion

■ Despite increased profits due to sales increase in TRS and FOREX impact in ACB, the overall company profit decrease due to sales decrease in CMP.

# Revision of FY2024 Forecast

# **Revision of Full-year Plan**

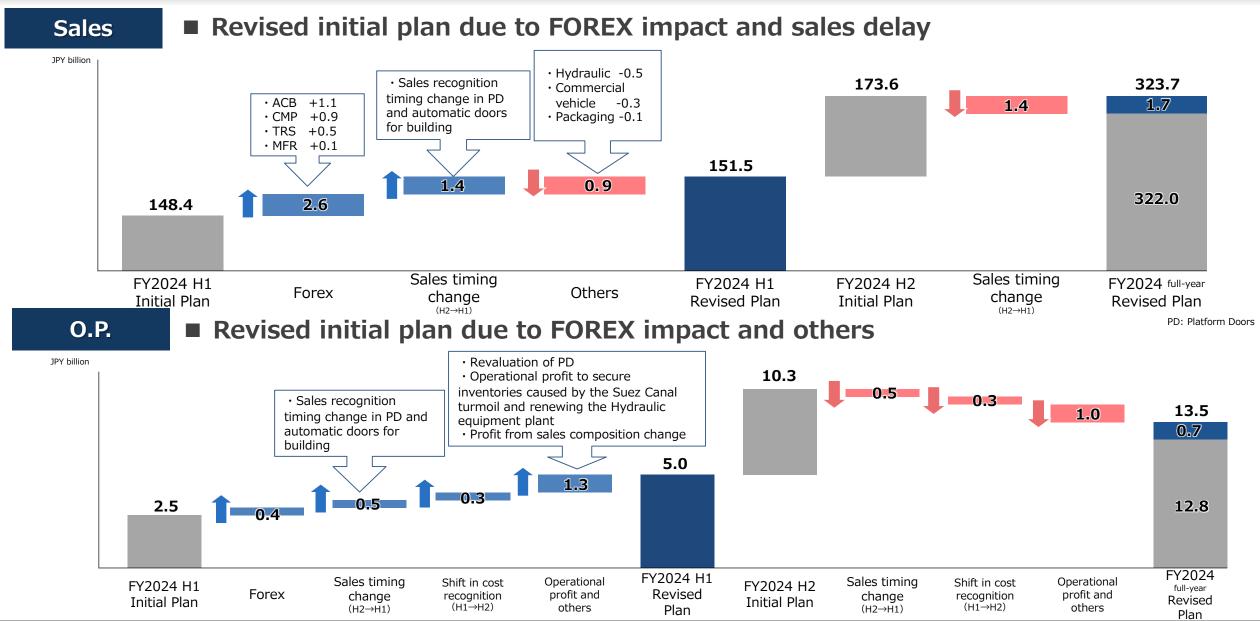

- Sales 323.7 JPY billion (Change from initial plan +3.1 JPY billion in H1 and +1.7 JPY billion in full-year)
- Sales increase due to FOREX impact
- Change in the timing of sales recognition in the automatic door business during the fiscal year (From H2 to H1)
- Operating Profit 13.5 JPY billion (Change from initial plan +2.5 JPY billion in H1 and +0.7 JPY billion in full-year)
- H1 profit increase due FOREX impact
- H1 profit increase due to delay in cost recognition, profit from higher operation and others

## **Forecast for Market Environment**

■ No market environment change in most businesses compared to initial forecast

#### **Business Environment**

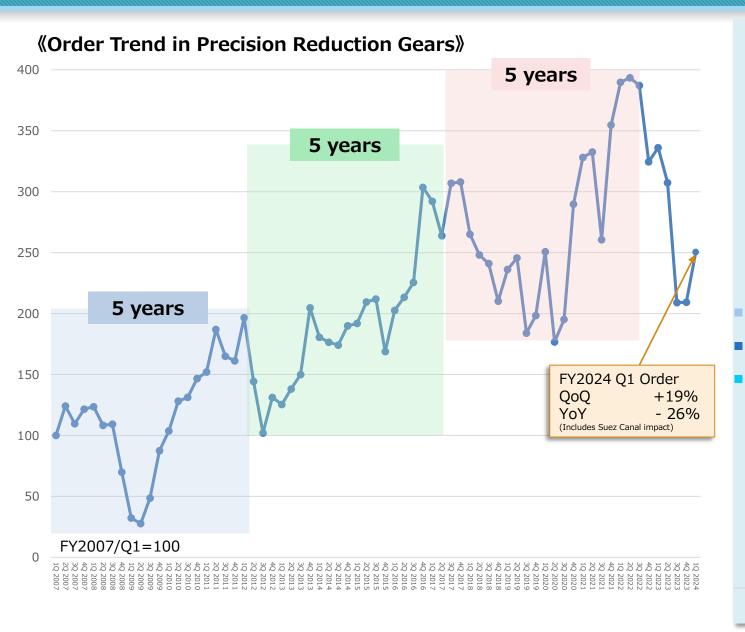

Business Unit	Market Situation	
Precision Reduction	Industrial robots: Signs of a bottoming out of orders, although demand remains sluggish due to weak EV capital investment and stagnant industrial robot inventories	1
Gears	FA: Machine tool orders continued to decline YoY. Investment in semiconductor-related business is beginning to pick up.	7
Hadaa dia	China Market: Demand decrease continued FY2024/Q1 Number of construction machinery units sold in China:*1 YoY-13.1%	1
Hydraulic Equipment	Outside of China Market: Sluggish demand in non-Japanese market while Japan market is steady 2024 JanFeb. amount of sales of construction machinery in Japan *2 (domestic & export): YoY-8.6%	<b></b>

<sup>\*1</sup>Source: China Construction Machinery Association \*2Source: Japan Construction Equipment Manufacturers Association

### **Revision of Full-year Plan**

- Orders for Q1 have exceeded the initial expectations due to requests to secure inventories caused by the Suez Canal turmoil.
- Estimation of H2 demand recovery forecast remains unchanged.
- Project 10: Profitability improvement actions toward 2026 are steadily underway.

#### Order Trend and Production Capacity in Precision Reduction Gears Innovation In Action Vision 2030

#### Annual production capacity in global: 1.06 million Units. As of FY2024Q1

(Utilization ratio)

- Japan (Tsu) Plant: 50% (@890K units/year)
- China Plant: 65% (@170K units/year)

Start operation of Hamamatsu Plant from August 2024 to improve profitability

# Topics

Vision 2030

Business	Topics	Detail
Marine Vessel Equipment	"Cassandra," a solution for vessels that utilizes AI, acquired ClassNK's Innovation Endorsement for Products & Solutions certification  Our challenges in mid-term management plan  Attain highly efficient and environmentally friendly manufacturing through automation and DX	Product: "Cassandra"  It is combines vessel performance-data with state-of-the-art AI techniques to enable vessel conditions to be visualized and monitored in real time.  Institution issue the certification: ClassNK (Nippon Kaiji Kyokai).  Type of certification: Certification of Innovation Endorsement for Products & Solutions  Features: It is designed to be able to monitor fuel-consumption, CO <sub>2</sub> emissions, and ship and engine conditions from shore by operating on a cloud platform.  AI Machine-Learning can be used to precisely analyze the impact of fouling on fuel-consumption, contributing to better vessel performances.

# Automatic Doors

Launch of Advertisement Distribution Service Using Digital Signage-Integrated Automatic Doors

Our challenges in mid-term management plan

Create new "intangible things" through IoT and data solution

Date of sales: April 2024

Customers: University, commercial and

public transportation facilities,

Toward the launch of the advertisement distribution service, Nabtesco started to sell digital signage displays for integrated use with automatic doors on March 1, 2024.
