News Release

June 30th, 2026

Notice Regarding Transfer of Shares of Subsidiary

Nabtesco Corporation (Headquarters: Chiyoda-ku, Tokyo; President: Kazumasa Kimura) hereby announces that it has agreed to transfer all of its shares in CMET Inc. (Headquarters: Yokohama, Kanagawa; President: Yoshikazu Oba; hereinafter "CMET"), representing 93.75% of CMET's issued shares, to Tobata Group Co., Ltd. (Headquarters: Kitakyushu, Fukuoka; President: Toshiharu Matsumoto; hereinafter "Tobata Group"), and has today completed the share transfer execution.

1. Reason for the Share Transfer

As part of its efforts to enhance corporate value over the medium to long term, the Nabtesco Group has been promoting the optimization of its business portfolio management.

Since acquiring shares in CMET in 2000, Nabtesco has driven the company's business growth by expanding sales of its stereolithography systems and launching a new sand mold 3D printer in 2015. On the other hand, expanding the customer base and developing new applications for further business expansion had become key challenges for CMET moving forward.

Against this backdrop, and after careful consideration of the best options for CMET's sustainable growth and development, Nabtesco decided to transfer all of its shares in CMET to Tobata Group, which possesses deep expertise and a solid customer base in the foundry industry.

We are confident that the synergy between CMET's molding equipment products and Tobata Group's customer base will deliver even greater value to customers in the future.
