<p>Nabtesco Selected for the Second Time for Inclusion in the Asia Pacific Index of the Dow Jones Sustainability Indices (DJSI)</p>
--

Nabtesco Corporation (headquarters: Hirakawacho, Chiyoda-ku, Tokyo; President & CEO: Kazuaki Kotani) hereby announces that it has been selected for the second time as a component company of the Asia Pacific Index, which is one of the DJSI family of indices identifying major companies in the Asia Pacific region. The Dow Jones Sustainability Indices (DJSI) (<http://www.sustainability-indices.com/>) are a group of well-established global benchmarks for socially responsible investment (SRI) established by S&P DOW JONES INDICES of the United States and RobecoSAM of Switzerland.

In selecting companies to be included in the DJSI, companies are comprehensively assessed on the basis of their approaches to corporate social responsibility (CSR) and sustainability from economic, environmental, and social perspectives. Along with the FTSE4Good Index series, the DJSI family of indices constitutes one of the two major SRI indices in the world, serving as an important investment selection criterion for investors interested in corporate sustainability. From among the top 600 Asian/Pacific companies ranked in terms of market capitalization in the S&P Global Broad Market Index (BMI) field, the top 148 companies (of which 65 companies are Japanese, including Nabtesco) have been selected for the DJSI Asia Pacific.

Under its corporate philosophy of “providing safety, comfort and a sense of security in daily lives as well as any form of transportation with our unique motion control technology,” Nabtesco provides products pivotal in building the social infrastructure that supports people’s everyday lives, while proactively promoting CSR. We view Nabtesco’s inclusion in the DJSI Asia/Pacific as a testament to the high regard placed on its range of corporate activities. Nabtesco will continue fulfilling CSR and striving to become a globally recognized company that lives up to the trust of all its stakeholders.

*Socially responsible investment (SRI): Investment performed in consideration of not only the financial analyses of companies, but also assessments of their approach to CSR including environmental and social activities.
