

The corporate governance status of the Nabtesco Group is as indicated below.

I. Basic views on corporate governance, capital structure, corporate attributes and other basic information

1. Basic views

Based on its corporate philosophy, which states, “The Nabtesco Group, with our unique motion control technology, will provide safety, comfort and a sense of security in daily lives as well as any form of transportation,” and through the implementation of “The Nabtesco Way,” the Nabtesco Group endeavors to enhance its corporate governance with the aim of realizing the Group’s sustainable growth, enhancing its medium- to long-term corporate value and earning the greater trust of its stakeholders.

Nabtesco has also established the Corporate Governance Basic Policy (hereafter, “Basic Policy”), which is posted on our corporate website.

Corporate Governance Basic Policy:

[\[Reasons for non-compliance with the principles of the Corporate Governance Code\]](#)

Nabtesco executes all principles of the revised Corporate Governance Code published on June 1, 2018.

[\[Disclosure based on the principles of the Corporate Governance Code\]](#) Updated

[Principle 1-4] Cross-Shareholdings

Please refer to Article 4 (Basic Policy on Cross-Shareholdings and Exercising of Voting Rights Concerning Cross-Shareholdings) of the Basic Policy.

In line with a basic policy under which it should as soon as possible dispose of and reduce cross-shareholdings that it finds of little significance in light of circumstances as of the end of an immediate fiscal year, the Board of Directors annually assesses, based on certain standards, whether a purpose of holding each individual stock is appropriate and whether the benefits and risks from each holding cover its cost of capital and reviews whether or not to continue to hold

the stock and the number of shares held.

At the Board of Directors meeting held on February 28, 2019, Nabtesco assessed each of 11 stocks held as of the end of fiscal 2018 based on its standards on whether or not to continue to hold a stock and consequently confirmed for each stock a certain degree of both significance and economic rationality. On the other hand, it was also decided to reduce the balance of the cross-shareholdings as much as possible in the future reflecting the changes in the environment concerning cross-shareholdings as per the revised Corporate Governance Code of June 2018.

[Principle 1-7] Related party transactions

Please refer to Article 5 (Related Party Transactions) of the Basic Policy.

[Principle 2-6] Roles of Corporate Pension Funds as Asset Owners

Nabtesco deems that Principle 2-6 is not applicable to it because it adopts a defined contribution corporate pension plan as its retirement pension plan.

[Principle 3-1(i)] Business principles, business strategies and business plans

Nabtesco has set out its Action Guidelines as a common set of principles applying to all employees in the performance of their duties and decision-making. The Action Guidelines, along with our Corporate Philosophy and Our Promises, are collectively referred to as The Nabtesco Way, which is disclosed on our website and via other tools.

Nabtesco has also formulated and disclosed a Long-term Vision that integrates the ideal image of our goals for FY2020, as well as a Medium-term Management Plan.

Please refer to our webpages below for details.

The Nabtesco Way: <https://www.nabtesco.com/en/company/greeting.html>

Long-term Vision: <https://www.nabtesco.com/en/ir/policy/vision.html>

Medium-term Management Plan: https://www.nabtesco.com/en/ir/policy/mid_term_plan.html

[Principle 3-1(ii)] Basic views and guidelines on corporate governance

Please refer to “I. 1. Basic views” of this report.

[Principle 3-1(iii)] Board policies and procedures in determining the remuneration of senior management and Directors

Please refer to Article 24 (Remuneration of Management Personnel) of the Basic Policy.

[Principle 3-1(iv)] Board policies and procedures in the appointment/dismissal of senior management and the nomination of Directors and Audit & Supervisory Board Member

candidates

Please refer to Article 23 (Nomination of Directors, Audit & Supervisory Board Members and CEO) of the Basic Policy.

[Principle 3-1(v)] Explanations with respect to the individual appointments/dismissals and nominations at the time of the appointment/dismissal of senior management and the nomination of Directors and Audit & Supervisory Board Member candidates by the Board of Directors
The reasons for appointing particular candidates to the position of Outside Director, and the career summaries, positions and assignments of other Directors and Audit & Supervisory Board Members, are disclosed in the notice of convocation of annual general meeting of shareholders and other materials. Please refer to our webpage below for details.

https://www.nabtesco.com/en/ir/stock/shareholders_meeting.html

[Supplementary Principle 4-1-1] Delegation to management

Please refer to Article 15 (Delegation to Management Personnel) of the Basic Policy.

[Principle 4-9] Independence Standards and Qualification for Independent Outside Directors

Please refer to Article 18 (Independent Outside Directors) of the Basic Policy.

[Supplementary Principle 4-11-1] Composition of the Board of Directors

Please refer to Article 16 (Composition of the Board of Directors) of the Basic Policy.

[Supplementary Principle 4-11-2] Significant positions concurrently held by Outside Directors and Audit & Supervisory Board Members (Independent) are disclosed every year in the notice of convocation of annual general meeting of shareholders and other materials. Please refer to our webpage below for details.

https://www.nabtesco.com/en/ir/stock/shareholders_meeting.html

[Supplementary Principle 4-11-3] Assessment of effectiveness of the Board of Directors

Nabtesco conducts analysis and assessment of the effectiveness of the Board of Directors every year based on the self-assessment, etc. of each Director with the aim of enhancing the functionality of the Board. In FY2018, self-assessment was conducted by all Directors and Audit & Supervisory Board Members by way of anonymous questionnaires, and the effectiveness of the Board was evaluated through discussions at the Board of Directors meeting based on the results including the summary and analysis by outside lawyers. An outline of the results is shown below.

According to the results, the Directors believe that the number of Members and the composition of the Board of Directors are appropriate and that unrestricted and constructive discussions take place. They also believe that Outside Directors in particular expand their understanding and insight about Nabtesco's business by holding Board of Directors' meetings at plants, which started from FY2017. Taking these points into consideration, the effectiveness of the Board is considered to be well-secured.

On the other hand, with regard to the composition of the Board of Directors, some medium-term challenges were pointed out, such as raising the percentage of Independent Outside Directors to one-third or more and increasing the number of female Directors, etc. Furthermore, as to how to proceed with discussions by the Board of Directors, various issues have continued to be recognized such as securing enough time for deliberations on important business issues including growth strategy.

Nabtesco will further enhance its corporate governance system to increase its corporate value through better corporate management. Based on the aforementioned evaluation results, we will further enhance the functionality of the Board on a continual basis.

[Supplementary Principle 4-14-2] Self-improvement and training for Directors and Audit & Supervisory Board Members

Please refer to Article 27 (Self-improvement and Training for Directors and Audit & Supervisory Board Members) of the Basic Policy.

[Principle 5-1] Constructive dialogue

Please refer to Article 29 (Constructive Dialogue) of the Basic Policy.

[Incentives]

Implementation status of policies concerning incentives for Directors **Updated**

Introduction of performance-based remuneration

Supplementary explanation for applicable items **Updated**

- Remuneration, etc. of directors comprises “monthly compensation,” which is made up of fixed compensation as the basic compensation and short-term performance-linked compensation, and “stock compensation” (so-called Board Benefit Trust; hereinafter, “BBT”), which is offered in consideration of the degree of achievement of the Medium-term Management Plan as well as the share value.
- Basic policy on the remuneration system:
 - The interests of shareholders and management should be aligned by enhancing the link between the Company's business performance and the share value.
 - The remuneration system should function as an incentive for improving the Company's

medium- to long-term performance.

- The determination process of the remuneration system should be highly objective and transparent.

For further details, please refer to “Disclosure of policy on determination of remuneration amounts or calculation methods” under “Matters relating to remuneration for Directors” below.

Supplementary explanation for applicable items

The total amount of the annual remuneration of Directors in FY2018 was 424 million yen paid to 12 Directors (including 30 million yen paid to three Outside Directors), out of which the monthly compensation was 301 million yen (including 30 million yen for three Outside Directors). With the introduction of the BBT (for which Outside Directors are not eligible), the total amounts of 35 million yen and 87 million yen were recorded as expenses for the benefits granted during the service period and at retirement, respectively, based on the number of stock delivery points granted or expected to be granted in FY2018 (the amounts were recorded based on the Japanese GAAP).

Policy on determination of remuneration amounts or calculation methods Updated	Established
---	-------------

Disclosure of policy on determination of remuneration amounts or calculation methods

■ Outline of the remuneration system

- 1) Remuneration, etc. of Directors comprises “monthly compensation,” which is made up of fixed compensation as the basic compensation and short-term performance-linked compensation, as well as “stock compensation,” called BBT, which is offered in consideration of the degree of achievement of the Medium-term Management Plan as well as the share value.
- 2) The basic compensation is fixed-amount compensation paid monthly in accordance with the position of each Director.
- 3) The amount of performance-linked compensation (monthly compensation) is calculated according to the degree of achievement of business performance using the following formula.

[Short-term performance-linked compensation]

“Short-term performance-linked compensation” = “Basic amount by position” x “Performance evaluation coefficient”

Note: The performance evaluation coefficient is determined using a matrix table that applies the ROIC sets a threshold value and net income (attributable to the owners of parent) of the previous fiscal year as the indices. (Coefficient: between 0.00 and 3.00)

The short-term performance-linked compensation for Directors in charge of an internal company is increased or decreased depending on the growth rate of net sales, the improvement of operating income, the improvement of ROIC, the R&D index, the environmental index, etc. of the relevant company.

- 4) The amount of stock compensation is determined by the following formula, by using the mechanism of the BBT, and depending on the degree of achievement of the Medium-term Management Plan.

[Stock compensation granted during service period]

Stock compensation granted during service period = Stock delivery points by position
x Performance evaluation coefficient
x Medium-term Management Plan achievement coefficient

Note: The performance evaluation coefficient is determined using a matrix table that applies the ROIC and that sets a threshold value and net income (attributable to the owners of parent) of the previous fiscal year as the indices. (Coefficient: between 0.00 and 3.00)

Note: The Medium-term Management Plan achievement coefficient is set at between 0 and 0.5 depending on the degree of achievement of net sales and operating income targets stated in the Medium-term Management Plan.

The timing for the grant, etc. of Nabtesco shares, etc. shall, in principle, be the date of Annual General Meeting of Shareholders of the last fiscal year ending within three years following the awarding of share grant points.

[Stock compensation granted at retirement]

Stock compensation granted at retirement = Stock delivery point by position

The rights to the delivery point are fixed on the date of retirement from the position of Director.

- 5) The composition ratio of compensation for Directors is decided by reference to the link between business performance and shareholder value.

In the cases of Chairperson of the Board and President:

Fixed compensation (basic compensation): 30%

Performance-linked compensation (short-term performance-linked compensation): 30%
Performance-linked compensation (stock compensation granted during service period): 20%
Performance-linked compensation (stock compensation granted at retirement): 20%

In the case of a Director:

Fixed compensation (basic compensation): 35%
Performance-linked compensation (short-term performance-linked compensation): 30%
Performance-linked compensation (stock compensation granted during service period): 20%
Performance-linked compensation (stock compensation granted at retirement): 15%

Note: The above-mentioned percentages are the median for each position, based on a model wherein the goals for performance-linked compensation is 100%.

- 6) The compensation for Outside Directors and Audit & Supervisory Board Members consists of fixed compensation only, with the performance-linked portions removed in consideration of the independence of Outside Directors and Audit & Supervisory Board Members from business execution.
- 7) The compensation rules stipulate that the return of all or part of the amounts of the performance-linked compensation may be requested in the event that a significant change in business performance occurs during the fiscal year that constitutes the basis for calculation of the performance-linked compensation as a result of revisions of the financial results for that fiscal year due to inappropriate accounting, etc., or if serious damage is sustained by the Company due to illegal or wrongful acts of Directors, etc.

■ Explanation of indices used for calculating performance-linked compensation

The indices used for calculating performance-linked compensation for Directors (except for Outside Directors) represent the result of activities of all employees, and are based on ROIC, a major index that may contribute to improvement of ROE, and net income (attributable to owners of parent). All Directors are thus expected to promote management geared toward the sustainable growth of the Nabtesco Group, bearing in mind the cost of capital and payout ratio. Furthermore, for those Directors in charge of specific businesses, functions serving as incentives toward the improvement of medium- to long-term business performance are added by establishing management indices such as those representing the degree of improvement of ROIC, R&D indices for promoting the creation of intellectual properties, environmental indices reflecting the reduction of CO₂, etc.

As to the degree of achievement of the Medium- to Long-term Management Plan, we have adopted net sales and operating income as representing the results of business activities of all Directors and employees, with the aim of promoting activities directed toward a common goal.

It should be noted that the values of the above-mentioned indices may be increased or decreased in cases where impacts of events not attributable to business decisions of the Company occur.

[The figures for the major indices associated with performance-linked compensation for FY2018]

ROIC:	12.5%
Net sales:	282,422 million yen
Operating income:	29,468 million yen
Net income:	25,146 million yen

The performance-linked compensation for FY2018 was calculated based on the actual financial results for the fiscal year ended December 2017. In FY2018, Harmonic Drive Systems Inc., one of the equity-method affiliated companies of Nabtesco, acquired additional shares in its own equity-method affiliated company, from which investment returns were recorded. Therefore, the adopted indices were calculated by deducting the relevant returns from the above-mentioned actual results.

■ Method of calculating compensation, etc.

The policy on remuneration of Directors, compensation systems, levels and the amount to be paid to each Director are determined by the Board of Directors following deliberation and consultation by the Remuneration Committee consisting of one Internal Director and two Independent Outside Officers. The remuneration of Audit & Supervisory Board Members is determined through discussions by Audit & Supervisory Board Members. The deliberations concerning the remuneration of Directors and the activities for determinations by the committees, etc. during the current fiscal year were as follows.

[Number of the committee meetings, etc. held (from January to December 2018)]

Remuneration Committee meeting: twice

Board of Directors meeting: twice

2. Matters concerning functions of business execution, auditing, oversight, nomination and remuneration decisions (overview of current corporate governance system) Updated

Board of Directors

The Board of Directors formulates the Group’s basic policies and strategies, makes decisions about the execution of important business matters and supervises the way business is carried out.

It shall be composed of up to 10 Directors including two or more Independent Outside

Directors. The current Board of Directors is composed of 10 Directors including three Independent Outside Directors. Meetings are held at least once a month, in principle. During FY2018, 18 meetings were held.

Nominating Committee

The Company established the Nominating Committee as a consultative body of the Board of Directors to deliberate the nomination of candidates for Director, Audit & Supervisory Board Member, President (CEO) and Representative Director positions as well as a successor plan for the new President (CEO), etc., and report the results to the Board of Directors. The Committee is composed of three to five members, of whom the majority shall be Independent Outside Officers. The current Nominating Committee is composed of three members including two Independent Outside Officers. During FY2018, three meetings were held.

Remuneration Committee

The Remuneration Committee as a consultative body of the Board of Directors deliberates the remuneration of the management team, etc. and reports the results to the Board of Directors. The committee shall be composed of three to five members, of which the majority shall be Independent Outside Officers. The current committee consists of three members including two Independent Outside Officers. The meeting was held twice in FY2018.

Compliance Committee

The Compliance Committee as a consultative body of the Board of Directors establishes and revises the “Nabtesco Group Code of Ethics” and deliberates priority challenges concerning the Group’s compliance system, and reports the results to the Board of Directors. 3. Reasons for adopting the current corporate governance system Updated

- The Company's Board of Directors specifies in the Articles of Incorporation that the term of office of a Director is one year in order to clarify the management responsibility of Directors. The Remuneration Committee, the Nominating Committee and the Compliance Committee are established as consultative bodies of the Board of Directors.

- The Company has adopted the format of a “Company with an Audit & Supervisory Board” as its institutional design under the Companies Act of Japan. The Audit & Supervisory Board has established the Group Audit & Supervisory Board, which includes Audit & Supervisory Board Members of the Group companies, as a way of strengthening audit functions of the Group.
- The Company has adopted as its corporate system the executive officer system, under which the business execution is intensively carried out under the policy, strategy and supervision of the Board of Directors. In the revised Articles of Incorporation effective March 27, 2018, the position of President was changed to executive officer, with the President to be appointed from among executive officers, and the position of titled Directors was abolished with the exception of the Chairman of the Board, serving as a chairperson of the Board of Directors. (Resolution of the 15th annual general meeting of shareholders held on March 27, 2018.)

By improving and reinforcing the corporate governance systems mentioned above, we will maintain expeditiousness and flexibility in business execution, strengthen our overall corporate governance, and clarify where responsibility lies, thus realizing efficient and transparent business management, which is considered helpful in enhancing the corporate value of the Nabtesco Group.

3. Measures for respecting the position of stakeholders Updated

Supplementary explanations

Stipulation of internal rules for respecting the position of stakeholders

We have established The Nabtesco Way, which is composed of the Corporate Philosophy and

Our Promises as well as the Action Guidelines, as a common set of principles applying to all employees in the performance of their duties and decision-making, and the Nabtesco Group Code of Ethics.

Implementation of environmental protection and CSR activities

As the priority focus of its CSR activities, the Group is planning to implement measures for the environment and the fulfillment of CSR across its supply chain. The Group includes “consideration for the global environment” among its top priority management challenges and has formulated the Environmental Philosophy and the Environmental Action Plan as specific Group-wide action guidelines. Under these guidelines, we proactively work toward reducing the environmental impact of our business activities and improving the environment by setting quantitative targets whenever possible. In terms of supply chain management, we established the Nabtesco Group CSR-Oriented Procurement Policy in April 2014 with the aim of addressing global human rights issues, such as child labor, forced labor and the issue of conflict minerals. In the same month, we announced our support for and signed the United Nations Global Compact in our further efforts to foster CSR-oriented management.

Specific activities related to CSR are summarized in our CSR Reports issued annually since 2011 and our Integrated Reports issued since 2014.

In August 2016, the CSR Committee was established directly under the CEO to oversee the Group’s entire CSR activities and, in December 2016, the CSR Basic Policy was established with the aim of promoting CSR-oriented management in a more systematic manner.

In December 2017, the “Nabtesco Group Human Rights Policy” was established with the aim of having all officers and employees of the Group comply with international standards and laws and regulations of each country and area, and implementing efforts to respect human rights.

In June 2018, the Nabtesco Group Policy on Corporate Citizenship Activities was established as our approach toward strategic promotion of Group-wide corporate citizenship activities with regard to “local community development,” which is part of the Materiality (Material CSR Issues).

In 2018, based on the recommendations of the

Formulation of policies on the provision of information to stakeholders

Task Force on Climate-related Financial Disclosure (“TCFD”), we established a team to grasp and disclose financial impacts of risks and opportunities arising from climate change. The Insider Information Management Standards and the Guidelines on Information Disclosure for Public Relations and IR have been established.

IV. Matters related to the internal control system

1. **Basic views on the internal control system and progress of system development**

Updated

The Group’s basic policies for construction of internal control systems are set forth as follows.
