

Awarded Two Highest Ratings from CDP 2018 Nabtesco Included in the Climate Change & Water Security A Lists

Nabtesco Corporation (headquarters: Chiyoda-ku, Tokyo, President & CEO: Katsuhiko Teramoto) announces that it was selected for inclusion in the CDP's Climate Change and Water Security A List as one of the world's leaders in corporate response against climate change and water degradation in 2018. Nabtesco has been included in the Climate Change A List for three years in a row since 2016 and is included in the Water Security A List for the first time.

CDP is an international non-profit organization that conducts activities for a sustainable economy. Every year thousands of companies disclose data about their environmental impacts, risks and opportunities to CDP for independent assessment against its scoring methodology. In 2018, over 7,000 companies with over 50% of global market capitalization were requested to do so by over 650 investors with over US\$87 trillion in assets. Among these, 126 companies were recognized as the A list in the Climate Change sector and 27 companies in the Water Security sector, respectively.

Nabtesco set its long-term CO₂ emission reduction target towards 2030 and 2050 in December 2016, which is officially approved by the Science Based Targets Initiative (SBTi) for its consistency with the 2 degree Celsius target set in the Paris Agreement. Nabtesco has been implementing thorough energy saving activities on a global scale, such as introducing high-efficiency manufacturing facilities and rebuilding factories that employ cutting-edge environmental technologies.

Regarding the water security sector, in addition to implementing multiple water-related risk assessments within its direct operation and supply chain, Nabtesco has also expanded the consideration of water-related risks and opportunities to overseas bases and set quantitative and qualitative targets for water-related activities. Nabtesco will continue to work on environmental and social issues to realize a sustainable society.
