

Nabtesco at “JIWS2018”

The JIWS2018 (Japan International Welding Show) will be held from Wed. April 25th to Sat. April 28th at Tokyo Big Sight. This show is one of the three largest welding trade shows in the world, and showcases all of the newest products and cutting-edge welding and joining technology that Japan has to offer.

As the leading manufacturer of Precision Reduction Gears, we will be showing many existing and also new products that are ideal for use in welding applications.

We look forward to seeing you there.
